Janos Technology Hires New Business Development Manager

July 22, 2005 – Keene, New Hampshire – Janos Technology, Inc. a world leader in advanced infrared optics announces the appointment of Karl Martinson to business development manager for defense & aerospace. Mr. Martinson has held executive positions in business development at Thermo Opticon Corporation, Corning, and Research Electro Optics. A veteran of the photonics industry, Karl has a broad base knowledge of the optical fabrication technology and extensive experience in managing strategic planning, technical sales and marketing communications efforts simultaneously. Martinson graduated from the University of Massachusetts (Lowell, MA) with degrees in Business Management and Engineering.

Mark Lenhart, director of marketing for Janos Technology, notes, "Karl Martinson is the ideal candidate for this position. His background in creating and implementing infrastructure and strategies that aggressively target key business opportunities requiring in-depth technical interaction will be instrumental in Janos' continuing upward growth. We are delighted to have him on board and look forward to the role he'll play in Janos Technology's expanding dominance in the optical design and fabrication world."

Mr. Martinson adds, "I believe that Janos Technology represents the ideal combination of capabilities and disciplines of optical fabrication technology. I'm excited to be a part of their energetic team and look forward to working with their talented staff and creative engineers to continue the rapid growth model and to propel Janos' next level of success in the optical industry."

Janos Technology, a leading supplier of optical components, lenses, assemblies and custom designed solutions for commercial OEM, aerospace/military and astronomy/R&D markets recently announced their relocation to a new, 44,000 sq. ft. lean manufacturing facility in Keene, NH.
